Subject: King v. Dee Service

Dear Curt:

This is to advise that the judge has ruled in our favor in the above Housing Court case, involving the effectiveness of our client's HVAC system.

The decision has references to your testimony and in court hot box demonstration as contributing to the decision.

This was a particularly complex case, given the ultra large HVAC system installed by the other company and the need to compare the two vis a vis the building code.

Thanks again for your efforts. I enjoyed working with you.

Regards,

Steve
